DOOR FURNITURE

MANITAL®

MADE IN ITALY

MANITAL has been manufacturing Italian made lever handles for over 29 years, and was founded near Brescia in Northern Italy in 1990 by Luigi Bigoloni, who's business philosophy was based on a passion for design and love for detail. Manital now distributes globally with over 60 lever designs, has ISO9001 quality accreditation, and has won numerous industry and design awards.

Exclusive Hardware Pty Ltd successfully introduced Manital lever handles to the Australian market in 1992 as its exclusive distributor, and quickly established Manital as a premium brand

offering an extensive range of lever designs and finishes. Company owner Garry Boyd retired and closed his business in 2018, after promoting Manital products in Australia for over 27 years.

Nidus Holdings Pty Ltd is now the exclusive Australian importer & wholesaler for Manital products, with Garry Boyd now working with Nidus as a consultant to help with the transition and to continue development of the brand in Australia.
